

Vendor: Cisco

Exam Code: 646-206

Exam Name: Cisco Sales Expert (CSE)

Version: DEMO

QUESTION 1

Which two factors are driving the demand for borderless networks? (Choose two.)

- A. Borders are foreseen to be defined by the location of users when they access resources.
- B. The number of non-PC devices is forecasted to grow between 101 percent and 258 percent by 2015.
- C. Companies are increasingly seeing their applications as operating only behind company firewalls.
- D. Increase in mobile workers is requiring companies to overcome the location border so that information can be accessed from anywhere.
- E. Enterprises are increasingly hesitant to become borderless due to varying user experiences, security, and reliability issues.

Answer: BD

QUESTION 2

What is the goal of the Cisco Borderless Network Architecture?

- A. to provide users with a single device that permits access to information anywhere
- B. to provide users with the same productivity and access to information no matter where they are or which device they use
- C. to eliminate the need for border security and firewalls
- D. to provide companies with a way to extend their security and control over employees on the Internet

Answer: B

QUESTION 3

The Cisco Services Ready Engine is an optional module of the Cisco ISR family. It includes onboard CPU and memory to run advanced applications. Which option is an example of an advanced application that runs on the Cisco Services Ready Engine?

- A. Cisco Express Forwarding
- B. Cisco Unity Express
- C. Cisco Routing Services
- D. Cisco Firewall Security

Answer: B

QUESTION 4

Which three options signal a customer need for a new core network infrastructure (including routing)? (Choose three.)

- A. decreased bandwidth needs
- B. increase in staff levels
- C. establishing a branch office
- D. operating a single-site office
- E. accommodating new services
- F. adequate bandwidth

Answer: BCE

QUESTION 5

Why is the Cisco Integrated Services Router product line a good choice for customers?

- A. is a point product solution that addresses a single need
- B. provides customers with an opportunity to increase the number of devices in their network
- C. simplifies purchasing because there is only one model to choose
- D. combines multiple services into a single platform and reduces operating costs

Answer: D

QUESTION 6

If an enterprise customer required a switch for their branch office access layer, which family of switches would the customer likely choose from?

- A. Cisco Catalyst 2000 and 3000
- B. Cisco Nexus
- C. Cisco Catalyst 4000 and 6000
- D. Cisco SFS 3000/7000

Answer: A

QUESTION 7

In which two situations is it more beneficial to position a Cisco Nexus Series 7000 Switch rather than a Cisco Catalyst 6500 Series Switch? (Choose two.)

- A. if Cisco Catalyst 6500 Series Switch is the traditional platform
- B. when putting the core network into the data center
- C. when network, computing, and storage convergence is anticipated
- D. when a customer wants a firewall and security in the core
- E. when interconnection is needed to unify multiple switches

Answer: BC

QUESTION 8

A customer wants to be able to detect and mitigate Wi-Fi and non-Wi-Fi sources of interference in their wireless enterprise network. Which Cisco access point should you recommend to the customer?

- A. Cisco Aironet 3500 Series Access Point
- B. Cisco Aironet 1260 Series Access Point, controller-based
- C. Cisco Wireless Control System
- D. Cisco Aironet 1040 Series Access Point, standalone
- E. Cisco VideoStream

Answer: A

QUESTION 9

Which three options are primary benefits of Cisco CleanAir technology? (Choose three.)

- A. detects, locates, and mitigates Wi-Fi and non-Wi-Fi interference sources
- B. uses multicast to improve rich-media applications
- C. visualizes performance-impacting interference and automatically adjusts network settings to avoid interference
- D. self-heals and optimizes wireless network
- E. delivers real-time spectrum intelligence
- F. delivers a comprehensive approach to business mobility

Answer: ACD

QUESTION 10

Which Cisco product family can simultaneously implement firewall, VPN, content security, network access control, and services virtualization?

- A. Cisco Catalyst Switches
- B. Cisco Adaptive Security Appliances
- C. Cisco Intrusion Prevention Systems
- D. Cisco ProtectLink Gateways

Answer: B

Thank You for Trying Our Product
