

Vendor: iSQI

Exam Code: CTAL-TA

Exam Name: ISTQB Certified Tester Advanced Level - Test Analyst

Version: DEMO

QUESTION 1

Which of the following is NOT an example of a typical pre-condition for test execution?

- A. A properly configured test environment
- B. Thoroughly specified test procedures
- C. A process for managing identified defects
- D. Defined level of requirements coverage achieved

Answer: D

QUESTION 2

The use of exploratory testing is also being considered. Which of the following practices is NOT part of exploratory testing?

- A. Writing test charters
- B. Holding debriefing meetings
- C. Writing detailed test procedures
- D. Working in pairs

Answer: C

QUESTION 3

Which of the following fits the principles of experience-based testing?

- A. Coverage calculations can be used to determine the amount of testing required
- B. Different people will have a different experience level regarding usability testing
- C. Models can be used to derive the required test cases
- D. Experience in test execution is more important than experience in test design

Answer: D

QUESTION 4

When preparing for an exploratory test, which of the following sets of artifacts would be the most appropriate to produce?

- A. Charter outlining tasks (tests) to be performed and objectives to be met, plus a set of heuristics to follow
- B. Charter outlining tasks (tests) to be performed and objectives to be met, plus a set of heuristics to follow and the completed session sheets
- C. Charter outlining tasks (tests) to be performed and objectives to be met, plus a set of defect types to be targeted and a list of new issues encountered
- D. Charter outlining objectives to be met, plus a set of heuristics to follow

Answer: A

QUESTION 5

To enhance the test design phase the purchase of a test design tool is being considered. Which statement characterizes best a test design tool?

- A. It validates models of the software
- B. It enables tests to be executed automatically
- C. It enables individual tests to be traced to requirements
- D. It generates test inputs or executable tests from requirements

Answer: D

QUESTION 6

Which of the following is an important principle for using experienced-based test techniques?

- A. Tester skill is a critical factor in assigning test execution tasks
- B. Tester skills are less important than ensuring 100% test utilisation
- C. Testers should always focus on defect-prevention activities
- D. Testers should be evaluated based on the number of defects they find

Answer: A

QUESTION 7

It is possible that the test execution phase will be shortened and that test cases will need to be prioritised. What is the main reason to prioritise the test cases?

- A. Get the areas the programmer is most worried about finished first
- B. Get finished within the time and budget available
- C. Ensure that when you stop you have done the best tests in the time available
- D. To ensure as many tests as possible are run

Answer: C

Thank You for Trying Our Product

Braindump2go Certification Exam Features:

- ★ More than **99,900** Satisfied Customers Worldwide.
- ★ Average **99.9%** Success Rate.
- ★ **Free Update** to match latest and real exam scenarios.
- ★ **Instant Download** Access! No Setup required.
- ★ Questions & Answers are downloadable in **PDF** format and **VCE** test engine format.
- ★ Multi-Platform capabilities - **Windows, Laptop, Mac, Android, iPhone, iPod, iPad**.
- ★ **100%** Guaranteed Success or **100%** Money Back Guarantee.
- ★ **Fast**, helpful support **24x7**.
