

Vendor: IBM

Exam Code: C2140-637

Exam Name: Requirements Management with Use Cases
(Part 2)

Version: DEMO

QUESTION 1

Given: Consider the following set of initial user requests from a telephone company about a new customer service system: * The telephone company customer service system shall be able to record and answer questions about telephone installations. * When a customer requests a new telephone, the service representative shall record the customer's name, address, assigned phone installer, and a projected time of the installation. * At the end of each day, the technicians shall record their work. * Start time shall include the year, month, day, hour, and minute. What is the most appropriate classification name for one of the actors in these system requirements?

- A. User
- B. Calendar
- C. Customer
- D. Installer

Answer: D

QUESTION 2

What type of relationship exists between use cases and actors?

- A. Arrow association
- B. Extends association
- C. Communicates association
- D. Generalization association

Answer: C

QUESTION 3

What does the basic flow of events in a use case describe?

- A. Typical use of the system by its actors
- B. Interactions between the use case and other use cases
- C. Least complicated interactions between the system and the actors
- D. Choices an actor makes while interacting with the system

Answer: A

QUESTION 4

Which of the following are properties of a use case? (Select all that apply.)

- A. Name
- B. Design constraints
- C. Special requirements
- D. Supplementary specifications
- E. Flow of events
- F. Preconditions

Answer: ACEF

QUESTION 5

What does a use-case diagram show?

- A. Software requirements
- B. Flow of events
- C. User interface screen layouts
- D. What the system is supposed to do

Answer: D

QUESTION 6

What does a supplementary specification include?

- A. Non-functional requirements associated with the entire system
- B. Non-functional requirements associated with a particular use case
- C. <<include>> and <<extend>> relationships associated with a particular use case
- D. Use-case diagram for the entire system

Answer: A

QUESTION 7

What question helps identify the actors in software requirements?

- A. Who will be using the system?
- B. What subsystems will be in the system?
- C. Who will be paying for the system?
- D. Who will be designing the system?

Answer: A

QUESTION 8

What question identifies use cases in software requirements?

- A. What goal will actors achieve by using the system?
- B. What do users need to know when they use the system?
- C. Why is data being stored in the system?
- D. What subsystems are in the software?

Answer: A

QUESTION 9

What is an actor?

- A. Role a tester plays when testing the system
- B. Role a person or thing plays when interacting with the system
- C. Anyone who has a vested interest in the outcome of the system
- D. Anyone who will purchase the system

Answer: B

QUESTION 10

Which of the following may result from a functional decomposition of use cases? (Select all that apply.)

- A. Requirements become fragmented and lose their context
- B. Brief descriptions are very long
- C. Requirements become untestable
- D. Use cases do not achieve clear goals for the actors

Answer: AD

Thank You for Trying Our Product

Braindump2go Certification Exam Features:

- ★ More than **99,900** Satisfied Customers Worldwide.
- ★ Average **99.9%** Success Rate.
- ★ **Free Update** to match latest and real exam scenarios.
- ★ **Instant Download** Access! No Setup required.
- ★ Questions & Answers are downloadable in **PDF** format and **VCE** test engine format.
- ★ Multi-Platform capabilities - **Windows, Laptop, Mac, Android, iPhone, iPod, iPad**.
- ★ **100%** Guaranteed Success or **100%** Money Back Guarantee.
- ★ **Fast**, helpful support **24x7**.
