

**Exam Code:** 646-653

**Exam Name:** Wide Area Application Services for Account  
Managers(WAASAM)

**Vendor:** CISCO

**Version:** DEMO

## Part: A

1: Which licensing option should you suggest to a client that is concerned with secure file caching?

- A.central license
- B.transport license
- C.enterprise license
- D.copyright license

**Correct Answers: C**

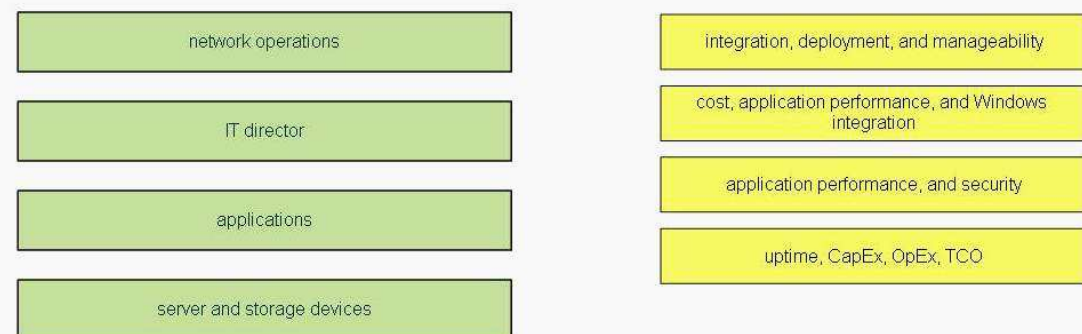

2: Which two statements about application security attacks are true? (Choose two.)

- A.Firewalls don't fully protect against application-layer attacks. True security is L2-L7.
- B.QoS can mitigate most application security attacks.
- C.An IPS will protect against all application level attacks aimed at advanced applications.
- D.Application-specific attacks are rare and they never occur over the WAN.
- E.Customized code and custom applications deployed over the WAN to partners and customers are particularly vulnerable.

**Correct Answers: A E**

3: Drop

Click and drag the IT decision maker or team on the left to its decision making area on the right.

**Correct Answers:**

Click and drag the IT decision maker or team on the left to its decision making area on the right.

4: How do you keep administrative traffic from traversing the WAN?

- A.by deploying centrally-managed services

- B.by deploying a firewall with managed services
- C.by using an intrusion prevention system with centrally-managed services
- D.by using an IVS

**Correct Answers: A**

5: What are the two factors that contribute to diminishing application performance? (Choose two.)

- A.bandwidth infrastructure costs
- B.lack of storage infrastructure
- C.physical network latency
- D.transport network management
- E.transport protocol management

**Correct Answers: C E**

6: Which three types of services are ones that WAAS deployment can offer to remote users? (Choose three.)

- A.security
- B.file
- C.print
- D.packet
- E.wireless
- F.call-control

**Correct Answers: B C F**

7: What is the goal of the typical distributed infrastructure?

- A.to increase bandwidth and latency
- B.to reduce infrastructure cost and complexity
- C.to consolidate as much as possible in the data center
- D.to improve data protection techniques in the data center

**Correct Answers: C**

8: Why is it necessary to prioritize traffic when a user tries to access physical resources over the WAN?

- A.to ensure communications are secure
- B.to ensure access to applications is provided
- C.to ensure application service levels are reliable
- D.to facilitate consolidation efforts

**Correct Answers: C**

9: Which of these is a major concern for branch offices?

- A.high latency
- B.high bandwidth
- C.low latency
- D.low bandwidth

**Correct Answers: A**

10: Which of these is effective at reducing the amount of network latency and number of delays caused by chatty protocols?

A.firewall solution

B.WCCPv2

C.content filtering

D.intelligent proxies

**Correct Answers: D**
