

Exam Code: 642-143

Exam Name: IP Telephony Express(IPTX)

Vendor: CISCO

Version: DEMO

Part: A

1: You want to classify and mark the packets that are received by a router from a Catalyst 2900 XL. Your supervisor wants you to retag the packets at the router. The connection from the switch to the router must be a trunk in order to carry the Layer 2 CoS markings. The router interface is a Fast Ethernet interface.

Which three steps will you use to correctly map 802.1p to DSCP on this L2 switch to accomplish this task? (Choose three.)

A.router(config)#class-map match-any CoS5

router(config-cmap)#match cos 5

B.router(config)# policy-map dot1p-to-DSCP

router(config-pmap)# class CoS5

router(config-pmap-c)#set dot1p dscp AF11

C.router(config)# interface fa0.1

router(config-subif)#encapsulation 802.1p

router(config-subif)#service-policy input DSCP-to-CoS

D.router(config)#class-map match-any 802.1p

router(config-cmap)#match dscp 5

E.router(config)# policy-map CoS-to-DSCP

router(config-pmap)# class CoS5

router(config-pmap-c)#set ip dscp AF11

F.router(config)# interface fa0/0.1

router(config-subif)#encapsulation isl 1

router(config-subif)#service-policy input CoS-to-DSCP

Correct Answers: A E F

2: The Clinton Howe Weights and Measures Company wants to send CDRs to a syslog server.

Which two options are required? (Choose two.)

A.The CDR collection must be enabled from the CLI.

B.The syslog server IP address must be configured using the logging command.

C.The CDRs must be sent to the syslog server using the gw-accounting syslog command.

D.The logging file must be initialized using the logging buffered command.

Correct Answers: B C

3: Which protocol is required for an IP Phone to register with Cisco CallManager Express?

A.TFTP

B.DHCP

C.NTP

D.FTP

E.AAA

Correct Answers: A

4: The Acme Rocket Corporation is integrating their existing Octel voice mail system with Cisco CallManager Express. The Octel voice mail system has four ports and a voice mail pilot point of

53222. How should the CallManager Express be configured to support this integration?

- A.A separate VoIP dial peer needs to be configured for the four pilot point numbers.
- B.Four dial peers need to be configured with the same pilot point number.
- C.Four ephone-dns and four ephones need to be configured with the same pilot point number.
- D.Four ephones and four dial peers need to be configured with the same pilot point number.

Correct Answers: B

5: A user dials 95551234. Which of the following configurations will send the digits 4085551234 to the PSTN?

A.dial-peer voice 1 pots
destination-pattern 9555?
prefix 408
port 1/0:23

B.dial-peer voice 1 pots
destination-pattern 9555?
forward-digits 10
port 1/0:23

C.num-exp 555? 408555?
dial-peer voice 1 pots
destination-pattern 9555?
port 1/0:23

D.translation-rule 5
rule 1 ^9555 408555
dial-peer voice 1 pots
destination-pattern 9555?
translate-outgoing called 5
forward-digits all
port 1/0:23

Correct Answers: D

6: You wish to verify that the pilot point number has been configured correctly in your CUE module. Using the show ccn trigger command provides the following output:

cue-10-0-0# show ccn trigger

Name: 6800

Type: SIP

Application: voicemail

Locale: en_US

Idle Timeout: 5000

Enabled: yes

Maximum number of sessions: 8

Name: 6700

Type: SIP

Application: autoattendant

Locale: en_US

Idle Timeout: 5000

Enabled: yes

Maximum number of sessions: 8

cue-10-0-0#

What pieces of information can you derive from this output? (Choose two.)

- A. The voice-mail pilot point number is 6800.
- B. The number of ports available is 16.
- C. The idle timeout is 5 seconds.
- D. The operator can be reached at extension 6800.
- E. The voice-mail application is enabled.

Correct Answers: A E

7: The system administrator at Knox Booksellers wants to connect to the PSTN via FXO port 1/0/0. The number assigned to this line by the telco is 408-555-1212.

Which configuration will route all incoming calls to a shared line with an extension of 2000?

- A. voice-port 1/0/0
description 408 555-1999
connection plar 4085551999 2000
- B. voice-port 1/0/0
description FXO 4085551999
connection plar 2000
- C. voice-port 1/0/0
description FXO 4085551999
translate incoming-called 4085551999 2000
- D. voice-port 1/0/0
description 408 555-1999
connection plar ephone-dn 2000

Correct Answers: B

8: In this diagram, Cisco CallManager Express is being integrated with a SIP network. Which two integration principles apply? (Choose two.)

- A. The SIP server must be configured for E.164 numbers that are going to register with the Cisco CallManager Express database.
- B. SIP support in IOS is a function of localized call processing integrated with CUE.

- C. Use the notify-based DTMF relay mechanism that is proprietary to Cisco.
- D. SIP support in dial peers is an IOS function.
- E. Use either the notify-based DTMF relay mechanism that is proprietary to Cisco or the RFC-based DTMF relay.

Correct Answers: D E

9: Cisco CallManager Express is being implemented in a standalone environment with PSTN interfaces. Which two of these represent valid options for fax support? (Choose two.)

- A. Make the fax machine appear to be an SIP device by connecting it to an ATA.
- B. Make the fax machine appear to be an H.323 device by connecting it to an ATA.
- C. Make the fax machine appear to be an SCCP device by connecting it to an ATA.
- D. Connect the fax to an FXO port of the Cisco CallManager Express router.
- E. Connect the fax to an FXS port of the Cisco CallManager Express router.

Correct Answers: C E

10: What are two main purposes of QoS marking? (Choose two.)

- A. Sort traffic into different service classes for QoS treatment.
- B. Signal network devices about which QoS mechanism should be employed to meet the requirements of a particular service class.
- C. Set fields in IP packets and identify packets as belonging to specific classes of service.
- D. Allow edge devices to select the QoS level on an application-by-application basis.

Correct Answers: B C

11: The IP Phone network administrator at Mercer General Communications needs to find the bundle for Cisco CallManager Express that contains the following files:

P00303020214.bin
P00403020214.bin
CP7050101SCCP030530B31.zup
telephony_service.html
admin_user.js
ephone_admin.html

Which two files should the network administrator download from www.cisco.com? (Choose two.)

- A. cme-b-acd-2.0.0.0.tar
- B. cme-gui-123-11XL.tar
- C. CiscoIOSTSP1.3.zip
- D. cme-123-11XL.zip
- E. c3745-js2-mz.124-1a.bun
- F. c3745-js2-mz.124-1.tar

Correct Answers: B D

12: Which technology is used to provide both an auxiliary VLAN and a native VLAN capability between a Cisco switch and a Cisco IP phone through a single port?

- A. 802.1q
- B. 802.3

C.802.1p

D.CDP

E.FDDI

Correct Answers: A

13: Which of the following are functions of an IP voice gateway? (Choose two)

A.translate analog voice to packetized voice

B.provide call admission control

C.provide far-end call control

D.transition call path between different networks

Correct Answers: A D

14: The Sam Adams ComCorr Co. wants to set up multicast MOH functionality to enable the streaming of music from an MOH server to the voice interfaces of on-net and off-net callers that are placed on hold. Which type of signaling is implemented in Cisco CallManager to ensure that this can happen?

A.Q.931

B.H.323

C.MGCP

D.H.245

E.H.232

F.H.225

Correct Answers: B

15: Which two commands need to be added to this configuration to allow IP Phones in subnet 10.100.1.0 to register with Cisco CallManager Express at address 10.10.1.1? (Choose two.)

```

interface FastEthernet0/0.10
  encapsulation dot1q 10
  ip address 10.10.1.1 255.255.255.0
!
interface FastEthernet0/0.100
  encapsulation dot1q 100
  ip address 10.100.1.1 255.255.255.0
!
ip dhcp excluded address 10.10.1.1 10.10.1.10
ip dhcp excluded address 10.10.1.200 10.10.1.255
ip dhcp excluded address 10.100.1.1 10.100.1.10
ip dhcp excluded address 10.100.1.3 10.100.1.255
!
ip dhcp pool Phones
  network 10.100.1.0 255.255.255.0
  dns-server 128.192.6.247
  domain-name mydomain.com
ip dhcp pool Data
  network 10.10.1.0 255.255.255.0
  dns-server 128.192.6.247
  domain-name mydomain.com

```

- A.ip helper address 10.10.1.1 under interface FastEthernet0/0.100
- B.option 150 ip 10.10.1.1 under dhcp pool Phones
- C.default-router 10.100.1.1 under dhcp pool Phones
- D.subnet prefix-length 24 under dhcp pool Phones
- E.encapsulation dot1q 10 native under interface FastEthernet0/0.10

Correct Answers: B C
