

Exam Code: 646-361

Exam Name: Foundation Express for Account
Managers(FOUNDAM)

Vendor: CISCO

Version: DEMO

Part: A

1: Which capabilities does the Cisco RFID-Ready Network support?

- A.retrieval and processing of information that is gathered from tagging, printing, labeling, and reader systems
- B.access to enterprise networks when in different service areas
- C.standards-based communications over multiple media types
- D.large enterprises that are primarily fitted with optical networking

Correct Answers: A

2: The Cisco Unified Wireless Network minimizes the TCO and maximizes wireless network uptime by optimizing which two deployment, management, and security features? (Choose two.)

- A.unified wireless and wired infrastructure for a single point of control for all WLAN traffic
- B.simplified management of central or remotely located access points
- C.extension features to wired network services, such as denial of service prevention and ACLs
- D.threat defense with a robust wired IDS

Correct Answers: A B

3: Whether an organization is a small or midsize business, an enterprise, or a service provider, there are certain key issues that are shared throughout the business environment. Which two choices best describe key customer security concerns? (Choose two.)

- A.increasing response time
- B.interacting with suppliers
- C.improving operational efficiency
- D.reducing complexity

Correct Answers: A D

4: In a networked supply chain, all members of the supply chain--partners, suppliers, manufacturers, distributors, resellers, retailers, and customers--are connected by an Internet-based network. What are two benefits of a networked supply chain? (Choose two.)

- A.extends the use of existing communications protocols
- B.reduces overhead costs by accelerating inventory turnover
- C.helps to ensure that all suppliers comply with the most recent security patches
- D.optimizes inventory management to ensure customer satisfaction and retention
- E.combines existing investments in a network infrastructure

Correct Answers: B D

5: What would be able to handle IP telephony and e-business applications concurrently?

- A.Cisco Catalyst switches
- B.Cisco SOHO routers
- C.Cisco 7000 Series WAN edge routers
- D.Cisco Integrated Services Routers

Correct Answers: D

6: Which market segment uses the Cisco Metropolitan Mobile Network to maintain uninterrupted network and application connectivity for mobile users, independent of location or movement?

- A.healthcare
- B.retail
- C.supply chain
- D.banking

Correct Answers: C

7: Which two business needs are reasons that you might want to recommend a Cisco Integrated Services Router? (Choose two.)

- A.high-bandwidth, innovative applications such as IP video
- B.a predominantly telecommuter workforce
- C.connecting the LAN to a service provider WAN
- D.an emphasis on performance and security for e-business
- E.a robust LAN intrusion detection system

Correct Answers: A D

8: As businesses add applications to the network, a Cisco systems-level approach benefits these businesses in which two ways? (Choose two.)

- A.provides expanded dedicated bandwidth across the infrastructure
- B.limits policy adherence as warranted across the infrastructure
- C.shares management tools and services across the infrastructure
- D.incorporates security defense mechanisms across the infrastructure

Correct Answers: A B

9: IP communications, wireless, and security work best as an integrated system within the network infrastructure. Which two statements best describe the benefits of an intelligent, integrated network? (Choose two.)

- A.An intelligent, integrated network will make the top of the network infrastructure more efficient.
- B.An intelligent, integrated network will adapt to new technology without adding complexity.
- C.An intelligent, integrated network will add an application-level approach.
- D.An intelligent, integrated network will help to manage the escalating costs of systems.

Correct Answers: B D

10: A customer wants to deploy a single-band access point for an 802.11b/g solution now, with the option to upgrade to 802.11a/b/g as network requirements change. Which Cisco access point series is best suited for this requirement?

- A.Cisco Aironet 1000 Series products
- B.Cisco Aironet 1100 Series products
- C.Cisco Aironet 1130AG Series products
- D.Cisco Aironet 1200 Series products

Correct Answers: D

11: Businesses face three types of economic impacts as a result of hacks or intrusions: immediate, short-term, and long-term. Which two best describe short-term economic impacts that can be caused by a security breach? (Choose two.)

- A.loss of retail sales
- B.delays in receiving checks
- C.disruption of business operations
- D.loss of suppliers or customers

Correct Answers: A B

12: A network evolves from connectivity to an intelligent network. Which two best explain what influences the move toward network integration? (Choose two.)

- A.need for advanced service and support
- B.need for more rapid response times
- C.need for a flexible network infrastructure
- D.need for a less complex network infrastructure

Correct Answers: C D

13: When a business suffers a security breach, there can be serious ramifications. What is one of the immediate impacts that the business can suffer because of a security breach?

- A.loss of retail sales
- B.loss of customer faith
- C.disruption of business operations
- D.inability to deliver products or services

Correct Answers: C

14: In a Cisco SDN, every element in the network acts as a point of defense. Which two best describe the features of Cisco SDN? (Choose two.)

- A.enables automated threat response
- B.enables noncompliant device access
- C.enables endpoint posture enforcement
- D.enables third-party client and server protocols

Correct Answers: A C

15: Because of the systems-level approach, Cisco security can defend against widespread attacks from hackers and viruses. What describes the Cisco network security strategy?

- A.Cisco Trust Agent
- B.Cisco Self-Defending Network
- C.Cisco Secure Access Control
- D.Cisco Network Admission Control

Correct Answers: B
