

Vendor: Adobe

Exam Code: 9A0-164

Exam Name: Adobe Captivate 5.5 ACE Exam

Version: DEMO

QUESTION 1

You are creating a course for a wide audience and you are NOT sure of the screen resolution they are using. Which project size should you choose?

- A. 200 x 200
- B. 320 x 240
- C. 800 x 600
- D. 1280 x 720

Answer: C

QUESTION 2

You are creating eLearning content for high definition output. Which project size should you choose?

- A. 320 x 240
- B. 800 x 600
- C. 1024 x 768
- D. 1280 x 720

Answer: D

QUESTION 3

You are creating a simulation to explain how a particular dialog in Adobe Photoshop functions. Which command should you choose to record this simulation?

- A. Application > Snap to Custom Size.
- B. Application > Snap to Application Region.
- C. Screen Area > Snap to Full Screen.
- D. Screen Area > Snap to Application Region.

Answer: B

QUESTION 4

You want to record a software simulation using the Snap to Application Region option and you end up selecting a wrong region. How should you select a different region?

- A. Exit the Capture dialog and restart the workflow.
- B. Click Configure Region and select a new region.
- C. Click Reconfigure Region and select a new region.
- D. Once selected, you cannot change the region.

Answer: C

QUESTION 5

You created a software simulation and noticed that none of the new windows you opened during the recording process are recorded. What should you have done prior to creating the simulation?

- A. In the Preferences dialog, set the Global Default to Move New Windows Inside Recording

Area.

- B. In the Preferences dialog, click Recording Settings and select Move New Windows Inside Recording Area.
- C. During the recording process, pause the recording, drag the new window inside the capture area, resume recording and then manually create a screen capture.
- D. When creating a software simulation, always use a project template.

Answer: B

QUESTION 6

You are creating a compliance course and need the course to be non-functional after a certain time period. Which option in the Preferences dialog should you select?

- A. Under General Settings category, select Project Expiry Date.
- B. Under Project Publish Settings category, select Project Expiry Date.
- C. Under Project Start and End category, select Project Expiry Date.
- D. Under Project Information category, select Project Expiry Date.

Answer: C

QUESTION 7

What is the most efficient way to capture actions outside the recording area?

- A. Record two videos, each showing the actions in their respective recording areas. After recording, import the slides and objects from one project into the other.
- B. Use the Custom recording mode and select Force all actions into the Recording Area.
- C. When creating the new project, select a Recording area that will be big enough to capture everything you'll be doing on your screen.
- D. Select either Automatic or Manual Panning prior to recording the simulation.

Answer: D

QUESTION 8

You are creating a software simulation on how to draw using a Paintbrush in Adobe Photoshop. Which is the most efficient mode of recording this simulation?

- A. Automatic
- B. Full Motion
- C. Manual
- D. Custom

Answer: B

QUESTION 9

You have recorded a Full Motion Recording (FMR) and need to delete some frames. What should you do?

- A. You CANNOT edit the FMR. Instead, re-record the lesson being careful not to include any extra mouse actions.

- B. Open the FMR in Flash for editing. Import the edited FMR back into Captivate.
- C. Go to the slide containing the FMR. In Properties Inspector > FMR Edit Options, choose Trim.
- D. On the Timeline, double-click the FMR. The FMR Editor will open giving you the ability to edit the FMR. Remove frames, click Save, and return to Captivate.

Answer: C

QUESTION 10

You have to add a Full Motion Recording (FMR) to your project. You do NOT want the mouse to appear in the recorded slide. What should you do?

- A. In the Preferences dialog, under Recording FMR category, uncheck Show Mouse in Full Motion Recording Mode.
- B. In the Preferences dialog, under Recording Settings category, uncheck Show Mouse in Full Motion Recording Mode.
- C. In the Preferences dialog, under Recording FMR category, select Hide Mouse in Full Motion Recording Mode.
- D. In the Preferences dialog, under Recording Settings category, select Hide Mouse in Full Motion Recording Mode.

Answer: A

QUESTION 11
